

Artist Study with Green Screen

WHAT: Using the app, Green Screen by DoInk, you can combine two images or an image and a video into one, creating a visual effect that can make it seem that you are walking on the moon, flying on the back of a dragon, or offering an update of the weather.

YOUR CHALLENGE: Step into the shoes of an artist and prepare a still image or video that helps to reveal some aspect of this artist's character and their art.

CAN YOU:

- Bring your artist to life?
- Set the scene? Is it a gallery? A Studio? A Canvas or a brick wall?
- Study their character traits? Do they change when with other people? Or when creating art?

LITERATURE CONNECTIONS:

Radiant Child by Javaka Steptoe

Action Jackson by Greenberg & Jordan

The World is Not a Rectangle by Jeanette Winter

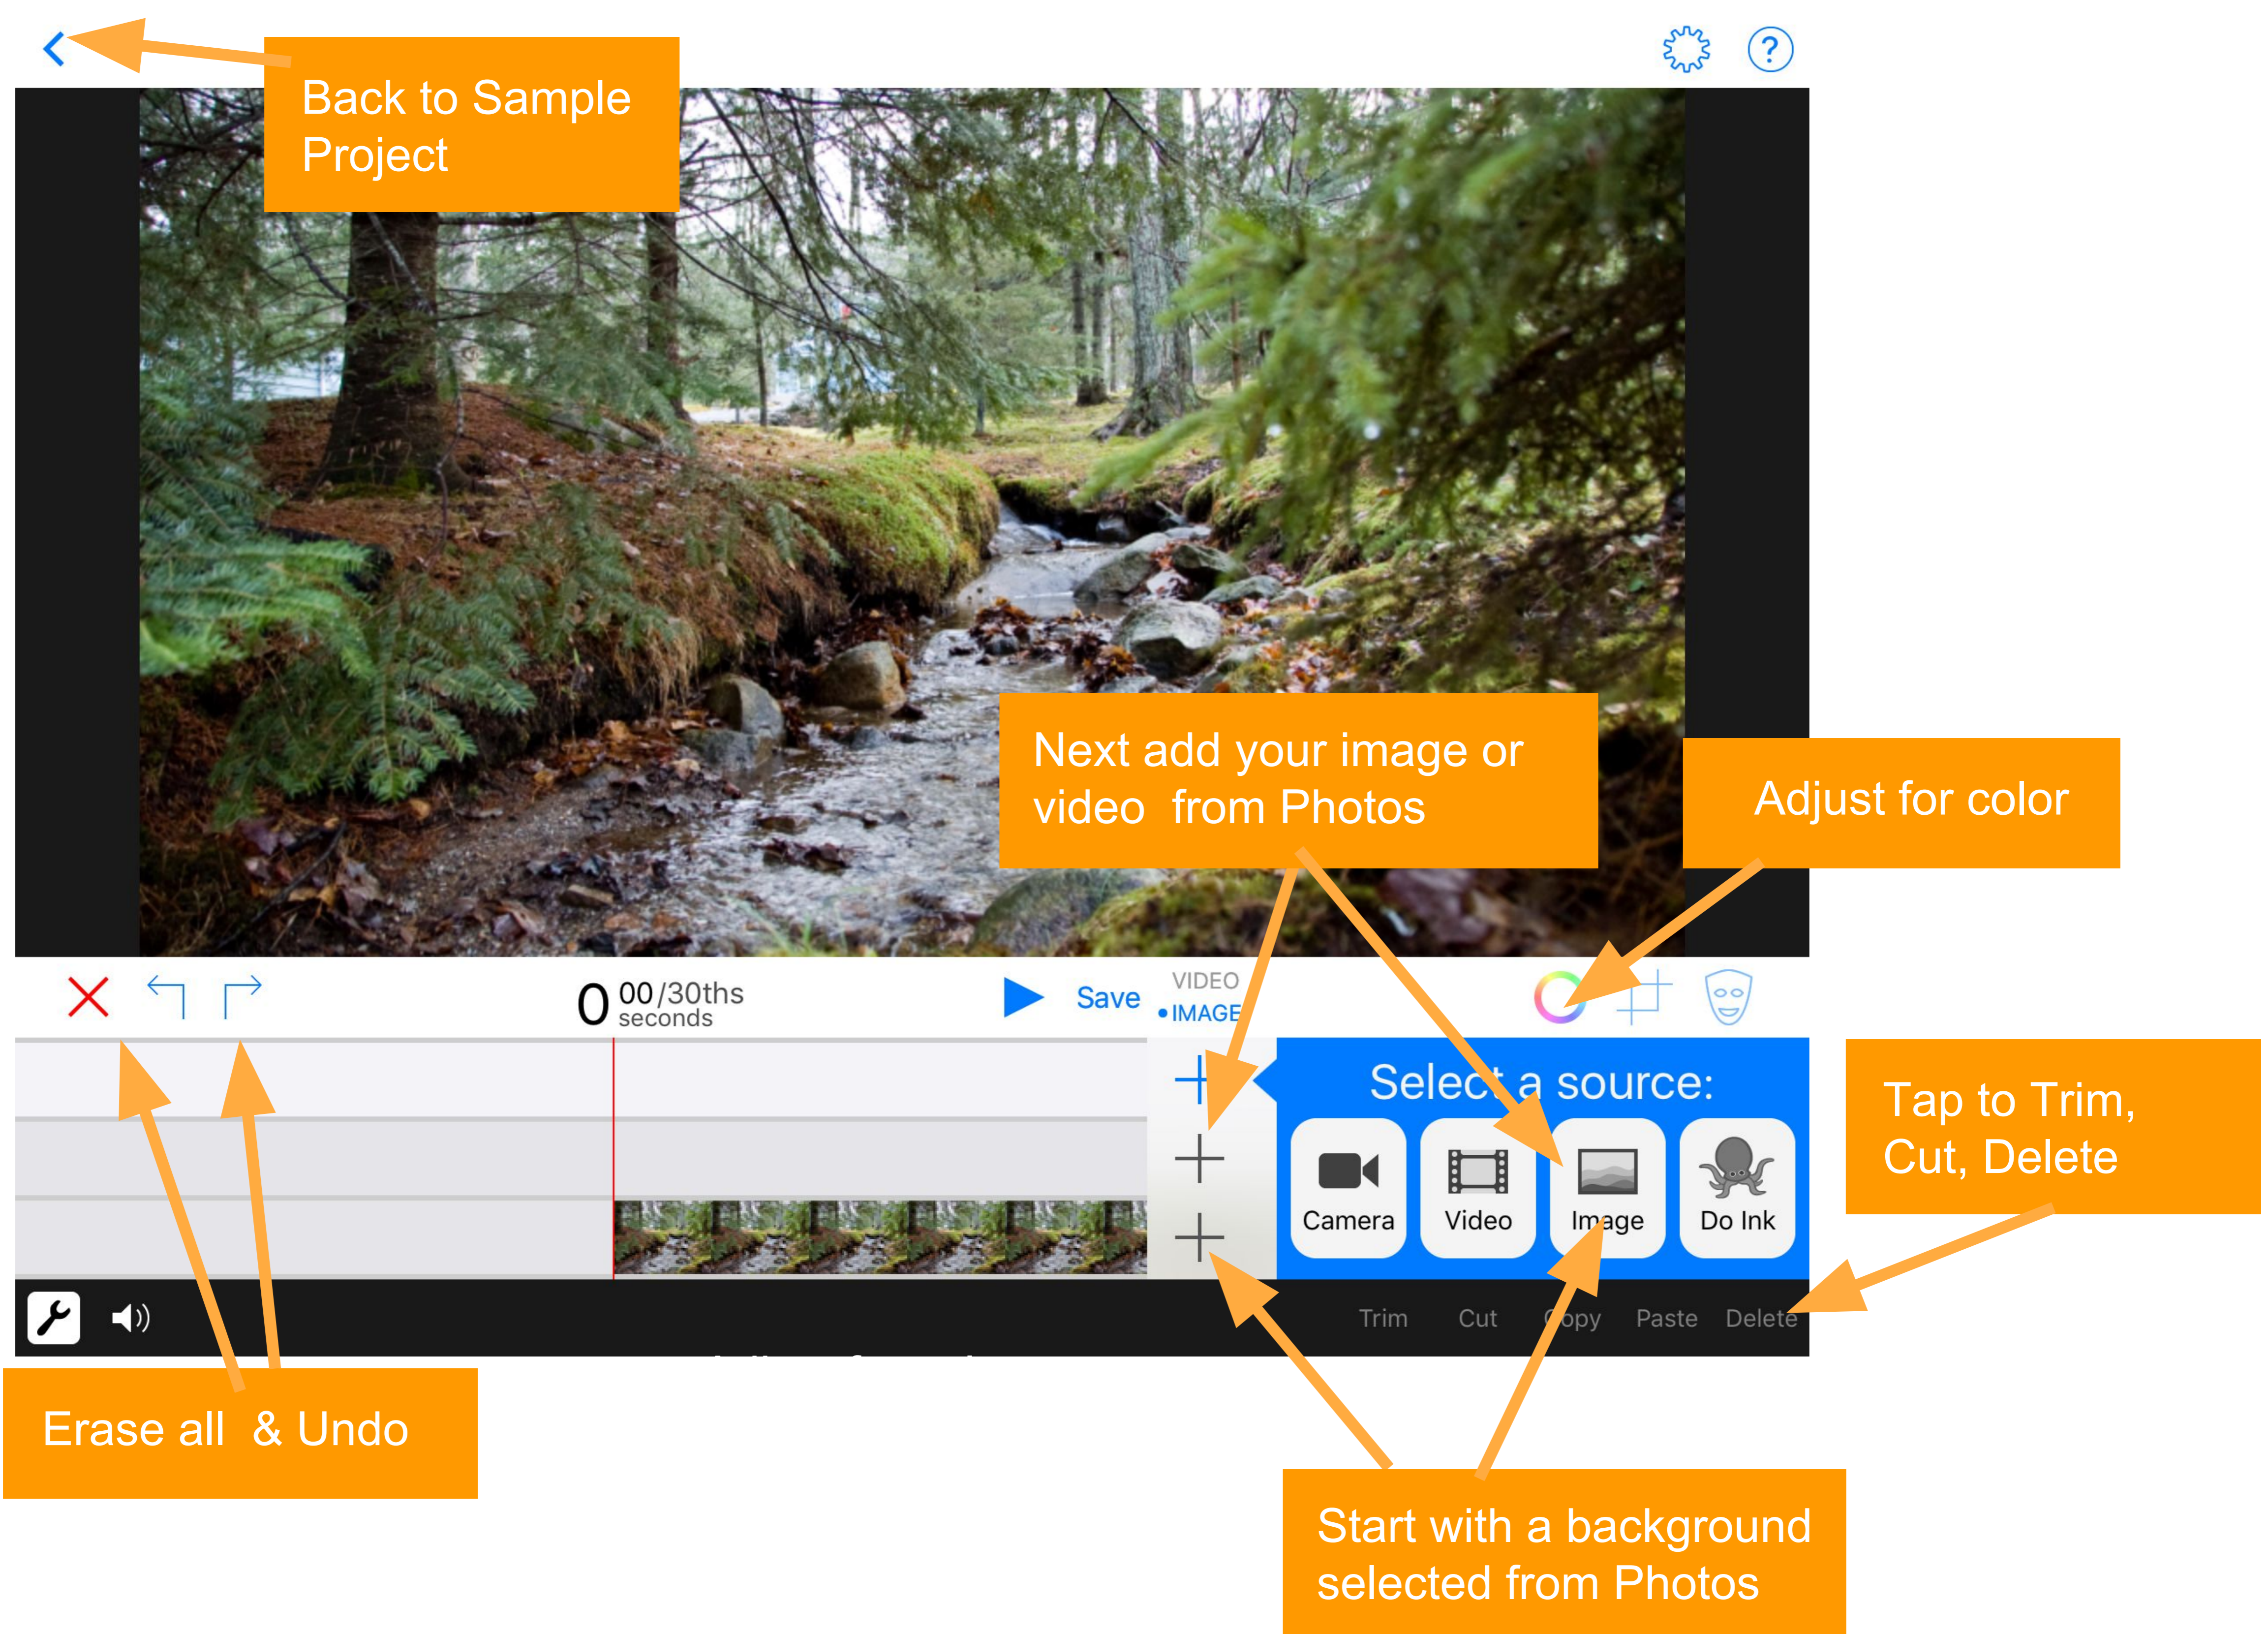

The Noisy Paint Box by Barb Rosenstock

A Splash of Red by Jen Bryant

Green Screen

WHAT: Using the app, Green Screen by DoInk, you can combine two images or an image and a video into one, creating a visual effect that can make it seem that you are walking on the moon, flying on the back of a dragon, or offering an update of the weather.

A Few Tips: For Background images take your own pictures with the iPad Camera or search on Google and save to Photos. Use the iPad camera to capture video instead of the DoInk video tool. It is sometimes easier to take videos and pull them in from the camera roll.
